Specialization in Diplomacy and Conflict Studies
Head of specialization: Dr. Amichai Magen

About the Program
The specialization combines theory and practice of contemporary diplomacy and the study of conflict. Students will gain an understanding of how conflicts and wars develop and how they may be managed or resolved, strategically, diplomatically or informally. By gaining knowledge and tools, students will be equipped to deal with international conflicts and problems in today's globalized world. In addition to the psychological, cultural and legal aspects of conflict, the program emphasizes the acquisition of tools for dealing with conflict: negotiation, mediation, public diplomacy, post-conflict reconstruction, and track-two engagement. International intervention, third party involvement and peacekeeping will also be examined, with particular respect for their integration into the strategies of governmental and non-governmental bodies. Additional emphasis on Contemporary Middle East, aims to explore the region's transformation in pursuit of democracy, economic development, as well as its effects on forces born and bred in the region – Islamic fundamentalism, global Jihad and extreme modes of nationalism. It highlights the fact that regimes and the public now the recognize unprecedented challenge of urgency for change, which touches almost every area of life in the Middle East.

Specialization in Counter-Terrorism and Homeland Security

Head of specialization: Dr. Eitan Azani

About the Program
The M.A. program with specialization in Counter-Terrorism and Homeland Security offered by the Lauder School of Government, Diplomacy and Strategy, in collaboration with the International Institute for Counter-Terrorism (ICT) at IDC Herzliya, is a cutting edge M.A. program which combines academic study, simulations and workshops, which offer special tools for critical thinking in this field. The courses provide concentrated, in-depth exposure to the phenomenon of modern terrorism and its characteristics, modus operandi, scope and dissemination throughout the world. Students will obtain an understanding of the challenge this phenomenon presents to decision-makers, security establishments, first responders, legal systems and the business sector, based on the experience Israel has accumulated in the field.

Cyber-Terrorism
The accelerated development of computer technology, in particular – the power of computers, the extensive and deep entrenchment of the Internet worldwide, and the broad accessibility of computers and the Internet – has rendered "cyberspace" a new and dangerous arena of activity for states, terrorist organizations and networks, and individuals with radical ideological or religious motivations. Security forces throughout the world have become convinced that cyberspace is fast becoming the main military and civil arena of such countries and organizations. The implications of a strategic cyber attack threaten to devastate civil society, causing unprecedented human injury and damage to critical national infrastructure. We therefore opened, in cooperation with the Efi Arazi School of Computer Science, a graduate-level sub-specialization dealing with cyber-terrorism. The aim of the specialization is to introduce students in the field of cyber-terrorism, and expose them to the characteristics, modus operandi and scope of the cyber-terrorist threat. The courses will provide a brief overview of the relevant technical aspects of cyber terrorism, the motivation and capabilities of various terrorist organizations, and discuss mitigation plans against these threats.

833 Beginning Arabic – Mrs. Aliza Raviv

Any MA level course at the IDC (including other courses from the MA in Government) may be taken as electives.

All MA level courses at IDC may be taken as electives with approval of the student’s thesis advisor.

**** limited to 15 students
Approval of the thesis proposal and a grade point average of 80 are required to proceed to the second year of study. **Total: 62 Credits**

**THE M.A. THESIS**

a. Students in the thesis program need to decide on their thesis topic in coordination with their advisor, no later than the beginning of the second semester of their first year of study.
b. M.A. Thesis Advisors must be permanent faculty members of the Lauder School of Government holding the rank of senior lecturer or professor. If the M.A. advisor is not from IDC, the student must select an additional advisor from the Lauder School of Government’s permanent faculty holding the rank of senior lecturer or professor, with the approval of the director of the MA program.

c. Thesis proposals must be submitted to the MA administration no later than the beginning of the second year of studies.

d. The thesis proposal must be approved by the thesis advisor, no later than the beginning of the second year of studies.

e. The thesis must be submitted to the thesis advisor by the end of the fourth semester of studies.

f. The student’s thesis will be evaluated by at least three lecturers, including the thesis advisor, all of whom will be at the rank of senior lecturer or professor. Two of them will be researchers from other educational institutions of higher learning, at least one of them will be a university faculty member.

g. The student will defend the thesis in an oral final examination.

h. The thesis committee will determine the student’s grade for the thesis (40%) and in the final examination (the defense – 10%) – two different grades; the remaining 50% of your grade is derived from courses.

i. Students who wish to withdraw from the thesis program or do not meet its requirements may transfer to one of the non-thesis specializations provided they meet the requirements for that specialization.

**Minimum Requirements to Transfer to the Thesis Program:**

a. Students must have a minimum G.P.A. of 88 upon completion of the first two semesters of the M.A. Program.

b. Student must choose a thesis topic.

c. Student must select an advisor from the Lauder School of Government's permanent faculty holding the rank of senior lecturer or higher. The adviser should approve the thesis topic. If the M.A. advisor is not from IDC, the student must select an additional advisor from the Lauder School of Government's permanent faculty holding the rank of senior lecturer or higher, with the approval of the director of the MA program.

Please note: Transfer to the M.A. with Thesis Program is not automatic. The student must meet the above requirements and submit the required information to the Head of the M.A. Admissions Committee (via the M.A. Administration). The Admissions Committee will then review and determine the student’s request.

• **Submission of names to the Student Union:** The list of names, addresses and telephone numbers of students attending the IDC Herzliya will be forwarded to the Student Union at the beginning of the school year. Students who object to have their personal details submitted to the Student Union are kindly asked to notify the Student administration in writing.

Please note the following:

a. A student that has either failed or has not completed an elective course in the previous year and wishes to register to the same course again, may do so during the registration period (as indicated above). The student must receive permission from the course instructor in advance.
